# About Tadamon

## Making CSOs Stronger

The IsDB - ISFD NGO Empowerment for Poverty Reduction Program (Tadamon) is a partnership program sponsored by the Islamic Solidarity Fund for Development (ISFD), managed and designed by the Islamic Development Bank (IsDB), and implemented by the United Nations Development Programme (UNDP). This booklet demonstrates how this initiative has evolved from providing visibility to Civil Society Organizations' (CSOs) projects and activities to facilitating and supporting innovative ideas that have potential to scale up in those Member Countries (MCs) of the Organization

of Islamic Cooperation (OIC) that have endorsed the Program.

The program is being implemented during the years 2019-2024 among the 57 OIC member countries. Each year, around 7 priority countries are selected for the implementation of the program. Within the scope of the program, over 100 CSOs are empowered annually. The goal of this booklet is to illustrate the activities and achievements of the IsDB-ISFD NGO Empowerment Program for Poverty Reduction in Indonesia.

***“Tadamon Crowdfunding Academy gave us a new experience on how to create a campaign to find a funding solution. The training provided is in accordance with current conditions, all of which use social media. This Academy provides an answer for those who have money so that it can be utilized properly by people who want to work for the common welfare.”***

Total amount raised through Tadamon partners

DATA OVERVIEW: May 2024

### In what countries is your CSO registered and licensed to operate?

## Program objectives

---

### Reduce poverty

in IsDB's MCs through development and humanitarian initiatives;

### Build relationships

and undertake cooperative initiatives to reach hard-to-reach communities;

### Showcase the benefits of an integrated approach

to improve the socio-economic wellbeing of hard-to-reach communities.

## Program activities

---

### 1 Mapping, screening, and categorizing of national CSOs

- **Developing a roster of CSOs** that can partner with IsDB/ISFD.
- **Identifying institutional capacity gaps**, specializations, and mapping of civil society landscape.
- **Identifying new partners**, such as: international CSOs, philanthropies, foundations, and platforms.
- **Providing an easy-to-search database** for future partners.

### 2 Capacity-building for local CSOs

through dialogue and institutional strengthening. The aim is to promote CSOs engagement on a country level in MCs to:

- Improve operational efficiency and effectiveness.
- Support strengthening of institutional capacity to raise funds, manage, implement, monitor, and evaluate grant projects.
- Participate in the Tadamon Crowdfunding Academy for sustainable financing.

### 3 Promoting innovative and transformative projects

led by CSOs that contribute to reducing poverty in their communities. These transformative projects focus on:

- **Improving the lives** of refugees, women, youth, people with disabilities, and children deprived of parental care through education and skills development.
- **Empowering vulnerable communities** through income-generating opportunities, community resilience building, and job creation for youth.

### 4 Development of the Tadamon online platform

that will:

- **Support mapped CSOs** to get more visibility, connections, training and funding.
- **Serve as the "Trip advisor" on CSOs** programs and projects in particular fields, in order to make it easier for citizens, the private sector, and philanthropies to financially support the humanitarian and development efforts of CSOs.

# Civil Society in Indonesia

CSOs in Indonesia play a critical role in promoting community-based development, which will help achieve the SDGs. There are 344,039 CSOs in Indonesia registered with the Ministry of Home Affairs (MOHA), Ministry of Law and Human Rights (MOLHR), and Ministry of Foreign Affairs (Indonesia's State Secretariat, 2017).

The Government allows for flexibility in establishing or operating civil organizations, thus CSOs can operate with or without status as a legal entity. Non-legal CSOs must have a registration certificate, whereas CSOs with a legal entity can operate as a foundation or association. The Government has taken formal steps to include CSOs as part of efforts to achieve all of the SDG pillars. In 2017, a Presidential Decree was issued to implement the Government programs to achieve the SDGs. It required civil society engagement in government planning.

In terms of function, Indonesian CSOs perform one or a combination of four core functions on behalf of their constituents or members: advocacy, provision of services, community mobilization and empowerment, and research. Due to the large number of CSOs operating in Indonesia, the complexity of their profiles, and the lack of a clear classification system to provide a

useful basis for organizational categorization, Indonesian CSOs are classified as organizations with membership and organizations not providing membership for individuals. Membership is an important parameter because it impacts the structure and organizational mechanism, services and products, modes of engagement, and other aspects of CSO activity. Membership CSOs are large-scale organizations primarily concerned with serving the interests and needs of their members. However, these organizations also provide services to the public, mostly around economic, professional, social, and/or religious identities. Non-membership CSOs such as NGOs, voluntary organizations, and half-structured state organizations that provide development programs do not have such arrangements.

Maintaining the sustainability of Indonesian CSOs requires two strategic steps. First, the extent to which organizations can place themselves in the dynamics of rapidly changing environmental conditions, continuously pushing themselves to change and find new relevant spaces. As a result, CSOs must evolve into dynamic organizations that are builders, learners, and reformers. Second, the ability of CSOs to manage and mobilize their resources is of utmost importance.

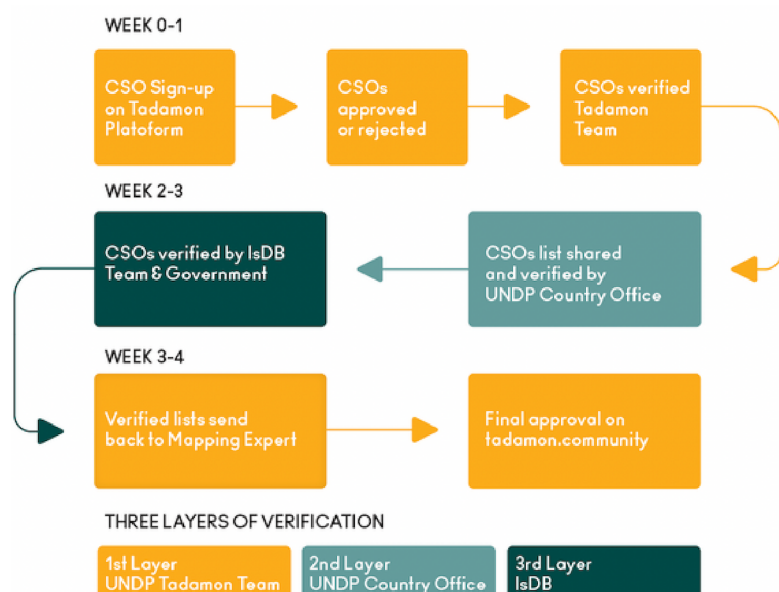

# Mapping of CSOs

Since 2020, the program has mapped, categorised and surveyed the civil society landscape across 33 OIC member countries. In 2021 this mapping was conducted in Indonesia in order to better understand and get to know the people and organizations at the forefront of grassroots development.

Instead of relying on existing databases and directories, a new approach was specifically designed to have CSOs come to our platform. The goal was to identify the most active organizations that would benefit from the program and its activities, by having CSOs sign up on the Tadamon platform.

After signing up and passing our three-step verification process, CSOs gain access to participate in our activities: grant programs, financed by IsDB, Crowdfunding Academies and other forthcoming capacity building programs.

## Sign Up Criteria

1. CSOs' activities are in line with IsDB's areas of interventions;
2. CSOs have no political affiliation
3. CSOs have a minimum of 2 years of experience
4. CSOs are registered and licensed to operate in their respective countries

## CSO verification

CSOs that signed up to the platform go through a three-step verification process to ensure they are eligible for the program and have an official registration with local authorities. The applications are also reviewed for any fake applications and scammers.

# Tadamon Crowdfunding Academy in Indonesia

Tadamon Crowdfunding Academy in Indonesia took place between 21st of April to 29th of April 2021. During the Tadamon Crowdfunding Academy in Indonesia, the below listed CSOs and their personnel were trained and empowered on the topic of developing crowdfunding campaigns while acquiring effective communication

skills (written, oral and visual), project development, and implementation skills.

CSOs were verified by UNDP; IsDB/ISFD and the Government of Indonesia as trustworthy and reliable partners.

# Tadamon Partners

## Humanitarian Leadership Academy

[www.humanitarianleadershipacademy.org](http://www.humanitarianleadershipacademy.org)

The Humanitarian Leadership Academy is a global learning initiative set up to facilitate partnerships and collaborative opportunities to enable people to prepare for and respond to humanitarian crises and development challenges in their own countries.

### Contribution

The Humanitarian Leadership Academy has partnered with IsDB and ISFD to provide the organizations participating in the Tadamon program with resources to support their learning and capacity building needs.

## NAMA Foundation

[www.namafoundation.org](http://www.namafoundation.org)

NAMA Foundation was established in Malaysia in 2004, with the mission of empowering communities and CSOs throughout the world in the education sector, through institutional grants and partnership building, supported by excellent project management and result measurement.

### Contribution

Funding and technical support of up to US\$2 million to the CSOs operating in Indonesia, Kyrgyzstan and other countries according to mutual agreement.

## International Institute of Tropical Agriculture (IITA)

[www.iita.org](http://www.iita.org)

IITA's mission is to ensure food security for some of the world's poorest people and provide them with viable strategies that create real long-term results for economic development and community stability, while building an ecologically sound future that takes into account the issues of climate change. IITA sees a bright future for Africa. It sees a continent that can become a world leader in agriculture and sustainability.

### Contribution

In-kind:

- Nigeria: up to US\$5 million
- Other countries: up to US\$100,000 per year in research funding

## Al Awn Foundation for Development

[www.alawn.org](http://www.alawn.org)

Al-Awn Foundation for Development seeks to lead in grants for sustainable development in vital areas, through a series of programs and projects based on studies stating the importance of partnership with governmental institutions, organizations, and communities.

### Contribution

Al Awn Foundation will contribute an amount of US\$1 million for activities in Yemen.

*The designations employed and the presentation of material on this map do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations or UNDP concerning the legal status of any country, territory, city or area or its authorities, or concerning the delimitation of its frontiers or boundaries.*

## Tadamon Countries

As a result of CSO mapping, TADAMON now has a searchable database of over 3419 CSOs categorized by a number of variables. In this way, interested partners can search for organizations working on specific development challenges.

In 2020 we started with six pilot countries, in which to test our approach and refine our services. Each year we are expanding our network to new OIC member countries that have endorsed the Tadamon program.

| 2020       | 2021               | 2022     | 2023       |
